

Group Members:

Points: /100

Directions: As we navigate through our Child Development Unit, your table group will complete this collage project. Use the following parameters for completing the project:

*all groups members must participate (20 pts)

Age group: **infant** **toddler** **preschooler** **school-age**

*start with an 11x14 piece of construction paper, color of your choice, you may add another piece later if needed, give poster a title with your age group (5 pts)

*include 5 pictures that signify each area of child development we cover in class:

-cognitive, physical, social/emotional

*total of 15 pictures (5 for each development area) (15 pts)

*pictures must be relevant and show examples of development in each development area for the age group your group is assigned (15 pts)

*magazines are available for use in-class, other magazines and internet sources may be used outside of class

*number pictures and indicate area of development, the picture numbers must be visible

Example: C 1

S/E 4

(15 pts)

*make a list of the pictures on the back of the collage, indicating which area each falls into and give a *description* of why it fits into the area placed, for example: (30 pts)

Infant Development

#C 1 Books, it is important for toddlers to be read to for them to start recognizing words and language
#S/E 4, Hugging, toddlers needs hugs and affection to help them develop relationships and feel secure

*with these descriptions you are doing more than just stating what is happening in the picture, for full points you must show evidence of why you think the picture falls into one of the areas of child development
