

Sharing with Stakeholders Plan

IKM-Manning Community School District

Family & Consumer Sciences (FCS) Department

1. FCS Program of Study course sequence will be included in the district's Course Registration Book.
2. FCS Program of Study will be available on the teacher's district webpage.
3. The district's Course Registration Book will include a description for a seamless transition opportunity in Early Childhood Studies within the FCS Department from secondary to postsecondary education at Iowa Western Community College.
4. 9th graders will review various Programs of Study from all CTE areas as part of the career exploration process. The goal will be to help students identify a possible career pathway within their interest and/or aptitude to pursue in high school, as agreed upon by students and parents, which will allow for a smooth transition into a postsecondary program, and further down the road into employment in that career pathway.
5. Middle school and high school guidance counselors will provide an overview of the value of the various CTE Programs of Study to middle school and high school student during the building of 4 year plans and during each year's registration.
6. Completion of the secondary portion of the FCS Program of Study, by specific students, will be designated during the high school commencement ceremonies.
